Quarterly Financial Report

3rd QUARTER

Nine months ended
November 30,

2008

**Manitoba
Public Insurance**

Management Discussion and Analysis

Management's discussion and analysis provides a review of the financial results and future outlook of Manitoba Public Insurance. It should be read in conjunction with the unaudited financial statements for the third quarter ended November 30, 2008 included herein and the annual audited financial statements and supporting notes included in the corporation's 2007 Annual Report. Certain information in this report may consist of forward-looking statements. These statements are based on various techniques and assumptions including predictions about future events which may not occur. Actual results could deviate significantly from the forward-looking statements.

Goal 1

Universally available mandatory protection against the cost of automobile accidents. Rates, on average, will be lower than those charged by private insurance companies for comparable coverage and service.

Why? One reason for our creation was to deliver the best insurance value to Manitobans. This is the essence of our continuing success.

Driving and rating criteria:

- 2005 Toyota Matrix XR, (4 door hatchback, 4 cylinder)
- \$2 Million Third-Party Liability
- \$500 All Perils deductible

Among the lowest rates in Canada

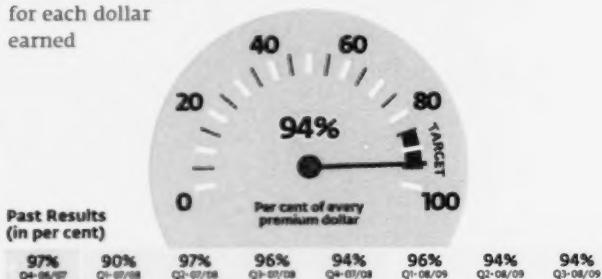

Goal 2

The Basic plan will return at least 85% of premium revenue to Manitobans in the form of claims benefits.

Why? Over the long-term, returns within this range strike the right balance. We pay back to Manitobans substantially more of their premiums than would private insurers, while keeping a sound financial footing.

Premium returned for each dollar earned

Goal 3

Manitoba Public Insurance will be a leader in automobile insurance and vehicle and driver licensing, providing Manitobans with superior products, coverage and service.

Why? By measuring key performance indicators, we can track the public's view of our performance.

Corporate Performance Index

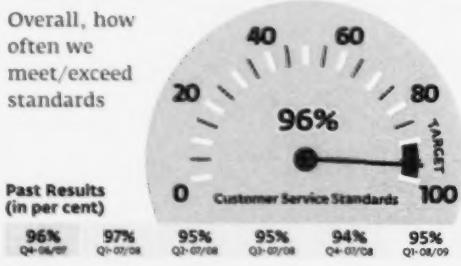

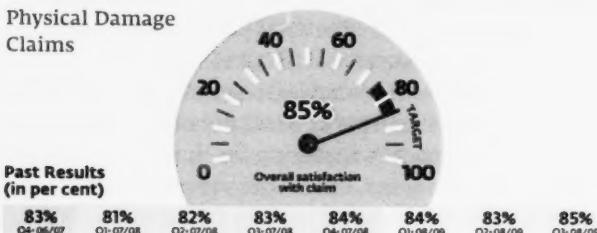

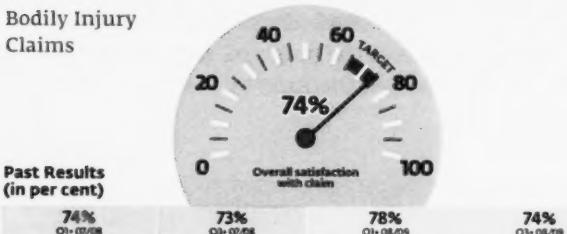

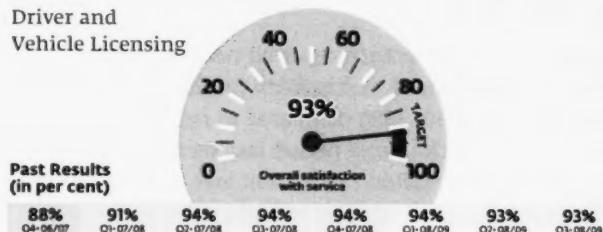

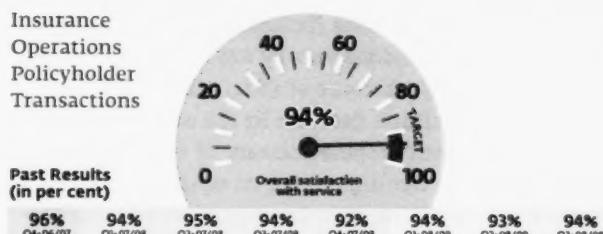

Goal 4

Manitoba Public Insurance will provide service that is responsive, fair, courteous and convenient. Manitoba Public Insurance will meet corporate customer service standards that are based on customer expectations.

Why? We value our customers and put their interests first. Also, Manitobans expect more from us than from private insurers, because Manitoba Public Insurance is their company. We believe their higher expectations are justified.

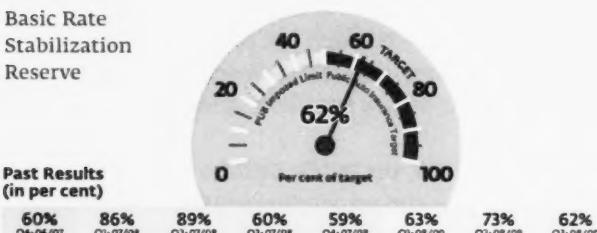

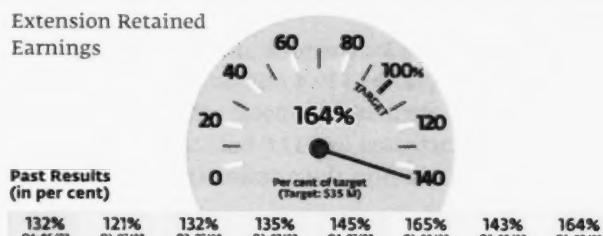

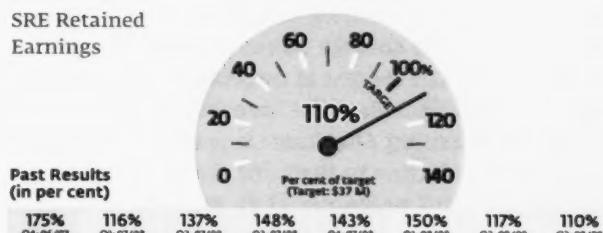

Overall, how often we meet/exceed standards

Goal 4 continuedPhysical Damage
ClaimsBodily Injury

Vehicle LicensingInsurance
Operations
Policyholder
Transactions**Goal 5**

Retained Earnings and Rate Stabilization Reserve will be maintained within established target levels.

Why? Our long-term objective is to break even financially and to be financially self-sufficient. Maintaining the RSR within its target range helps us control rates when claim costs rise substantially. Manitobans deserve stable, affordable premiums over the long term.

Earnings**Goal 6**

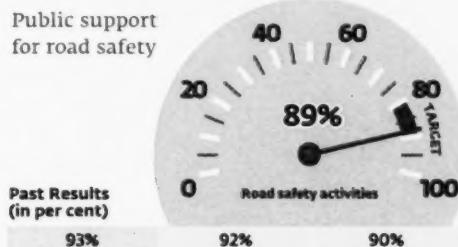

Manitoba Public Insurance will offer an environment and career opportunities that will encourage employees to strive for excellence. Our people will be treated with respect and fairness and their contributions will be recognized.

Why? We value our employees.

Level of employee
satisfaction**Goal 7**

Manitoba Public Insurance will lead driver and vehicle safety initiatives that reduce risk and protect Manitobans, their streets and their neighbourhoods. Manitobans will recognize the Corporation is living its mission.

Why? Pursuing traffic safety and loss-prevention programs reflects our long standing commitment to the well-being of Manitobans and to affordable auto insurance. Manitobans have told us they support these efforts.

Public support
for road safety

Results of Operations - Current Year and Last Year

Manitoba Public Insurance reported net income after surplus distribution of \$1.8 million for the nine months ended November 30, 2008 compared to net income of \$17.2 million for the same period last year. This includes a net loss of \$6.0 million (2007 – net loss of \$10.2 million) from the Basic Insurance line of business.

Net income from operations (before surplus distribution) declined from the previous year by \$78.6 million due to decreased investment income of \$93.3 million partially offset by a \$14.7 million decrease in the underwriting loss. The investment income decrease of \$93.3 million is primarily due to the high gains on equity investments realized in the first nine months of 2007 along with the impact of the global financial crisis on the equity and bond portfolios in 2008.

Total earned revenues for the nine months increased from the previous year by \$30.4 million. The majority of this increase is attributed to motor vehicle earned revenues which increased by \$33.0 million or 5.8 per cent due mainly to increases in the number and value of vehicles insured.

Claims costs for the nine months ended November 30, 2008 increased by \$7.7 million or 1.3 per cent compared to last year. Physical damage claims incurred decreased by \$23.8 million. The success of corporate initiatives to curtail auto theft, including the Immobilizer Incentive Program and Winnipeg Auto Theft Suppression Strategy, has resulted in a decline in theft and attempted theft claims costs of \$10.7 million or 37.4% from the nine months ended November 30, 2007. Also, last year's results were adversely affected by a severe hailstorm that struck Dauphin and other communities in August, 2007, which resulted in claims incurred, after reinsurance protection, of \$10.0 million. Bodily injury claims incurred rose by \$27.0 million as Personal Injury Protection Plan (PIPP) coverage types are subject to inflationary increases.

The corporation has established an Immobilizer Incentive Fund by appropriating \$50.0 million from the Basic Rate Stabilization Reserve (RSR). The fund provides financial assistance for vehicle owners to install electronic immobilizers that meet the Canadian standard, including paying 50 per cent of the cost of the standard installation and providing interest-free financing for the remaining 50 per cent up to five years. In addition, the fund also covers 100 per cent of standard installation costs for vehicles most likely to be stolen, regardless of where in Manitoba they are registered. The fund also covers the administrative costs of the program. Activity to November 30, 2008 reduced the fund by \$42.9 million to \$7.1 million.

In addition, the corporation established on March 1, 2007, the Extension Development Fund (EDF), by appropriating competitive lines retained earnings in excess of the most recent year's target of 200 per cent of the Minimum Capital Test (MCT). The MCT is a risk-based methodology developed by the Office of the Superintendent of Financial Institutions (OSFI) to assess a property and casualty insurance company's financial risk and determines the capital adequacy of reserves held in retained earnings. On March 1, 2007, \$39.0 million and on July 1, 2008, \$31.7 million was transferred from competitive lines retained earnings to fund the EDF. The EDF is being used to fund service improvements made possible by the merger with the Division of Driver and Vehicle Licensing and that flow through the competitive lines statement of operations. Activity to November 30, 2008 has reduced the EDF by \$10.6 million to \$60.1 million.

On November 26, 2007, the Public Utilities Board (PUB) released its ruling on the corporation's rate application for the 2008/09 fiscal year. Effective March 1, 2008, overall average Basic insurance rates remained unchanged from the previous year. The PUB also ordered the payment of a 10 per cent premium rebate to all Basic insurance policyholders based on 2006/07 rates. At February 29, 2008, the rebate was estimated to be \$62.7 million. The amount was actualized during the first quarter of the current fiscal year when \$62.6 million was distributed to Basic policyholders.

Retained Earnings

Retained earnings of \$286.0 million (2007 - \$266.5 million) are comprised of \$139.0 million for Basic Insurance (2007 - \$128.4 million) and \$147.0 million for competitive lines (2007 - \$138.1 million). The Basic Insurance retained earnings are allocated to the Rate Stabilization Reserve \$131.9 million and the Immobilizer Incentive Fund \$7.1 million. The Competitive Lines retained earnings are allocated to retained earnings \$86.9 million and the Extension Development Fund \$60.1 million.

Outlook

The corporation remains committed to achieving its seven corporate goals. Actual results will be monitored, and corrective actions taken when necessary, to ensure that expected outcomes are realized.

On December 2, 2008, the Public Utilities Board (PUB) released its ruling on the corporation's rate application for the 2009/10 fiscal year. Effective March 1, 2009, overall average Basic Insurance rates will decrease by 1.0 per cent from the previous year.

Current projections indicate the corporation is expected to realize a net loss from operations of approximately \$10.6 million during the current fiscal year.

Notes to Financial Statements

1. Certain of the comparative figures have been reclassified to conform with the current period financial statement presentation.
2. These interim financial statements:
 - should be read in conjunction with the corporation's 2007 Annual Report including the financial statements and supporting notes.
 - have been prepared following the same accounting policies that are disclosed in the corporation's 2007 Annual Report.
3. Effective on March 1, 2007 the corporation adopted the recommendations of CICA Handbook Section 1530, Comprehensive Income ("Section 1530"); Section 3855, Financial Instruments - Recognition and Measurement; Section 3861, Financial Instruments - Disclosure and Presentation; and Section 3251, Equity. These sections provide standards for recognition, measurement, disclosure and presentation of financial assets, financial liabilities, and non-financial derivatives. Section 1530 provides standards for the reporting and presentation of comprehensive income, which represents the change in equity, from transactions and other events and circumstances from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income that are excluded from net income calculated in accordance with Canadian Generally Accepted Accounting Principles (GAAP). The effect of the application of these standards increased the carrying value of investments by \$80,275,000 from \$2,015,010,000 to \$2,095,285,000 at March 1, 2007 to reflect the fair value of available-for-sale financial assets.

As a consequential effect of applying these new standards, the claims liabilities were recalculated using a market rate at March 1, 2007 resulting in an increase to the claims liabilities of \$22,948,000. Changes resulting from the recalculation have been recorded as transition adjustments in opening Basic Rate Stabilization Reserve and opening Competitive Lines retained earnings.
